

# Inventory – Training

---

# Objectives

By the end of this session, you will:

1. Get introduced to transactions
2. Run through transactions

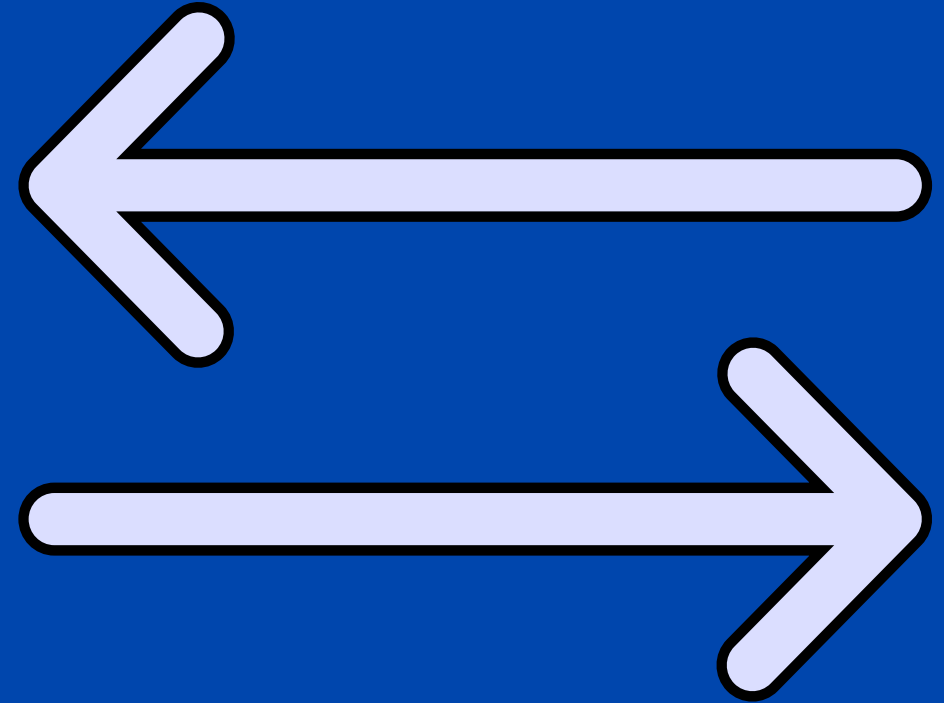

# Core Transactions

**IBLPN Dashboard (WMS)**

**Cycle Count by  
Location/Item/Sku Putaway  
Type (WMS & Flexi)**

**Creating Counts for Multiple  
Rows (WMS)**

# IBLPN Dashboard (WMS)

IBLPN Dashboard is a dashboard in WMS that is used to manage SKUs. Here is where you find the status, expiry date, location, etc of given LPN.

\*Demonstrate Here\*

IBLPN Dashboard

Apply Filters

Field	Operator	Value	Reports
Specify value for Facility:	Equal To	5120	IBLPN_report
Specify value for IBLPN:	Not Equal To		IBLPN_report
Specify value for IBLPN Status:	Is One Of	<div>Received Partly Allocated Lost Located</div>	IBLPN_report
Condition 1 for Lot Number	Start From To		IBLPN_report

Run ReportCancel Run

# Creating Counts for Multiple Rows (WMS)

Allows for a user to create multiple tasks for different locations at once

Ex: (Complex Operation)

SQL operator = AND

(Basic Operation)

SQL operator = ; <=; >=;

\*Demonstrate Here\*

AND	Sql operator * AND
location-aisle <= 15	Column name *
location-area = SA	Column value *
location-aisle >= 10	

AND	Sql operator * <=
location-aisle <= 15	Column name * location-aisle
location-area = SA	Column value * 15
location-aisle >= 10	

Sql operator *	<=
Column name *	IS BLANK OR NULL
Column value *	<>
	NOT IN
	IN
	>=
	>
	=
	<=
	<
	OR
	AND

- AND: Used when all conditions must be true.
- OR: Used when at least one condition must be true.
- IN: Used when to select multiple "OR"s
